Product sheet

Carnival Auto Welding Screen

Brand: STAYER

Reference: EDM 84019

The Carnival Auto welding helmet is made of polymer and is solar-powered. Designed for grinding, it offers a viewing area of 92 x 35 mm and an automatic filter of 110 x 90 x 8 mm. Its transition time from dark to light ranges from 0.2 to 0.8 seconds. It provides an adjustable protection rating from DIN 9 to DIN 13 and is suitable for temperatures from -5 °C to 55 °C.

Description

The**Carnival Auto Welding Helmet**is an essential tool for welding professionals and enthusiasts seeking safety and comfort in their work. Made of high-quality polymer, this helmet is solar-powered, making it efficient and environmentally friendly. Its design is suitable for grinding, offering a wide viewing area of**92 x 35 mm**and an automatic filter of**110 x 90 x 8 mm**, ensuring optimal visibility at all times. The transition time from dark to light is**0.2 to 0.8 seconds**, allowing for a quick and effective response during the welding process.

The helmet offers an adjustable protection level according to EN169, from**DIN9 to DIN13**, and in the clear state reaches**DIN4**.Furthermore, it provides protection against UV/IR radiation with a level of**DIN15**, ensuring maximum safety for the user's eyes. Its operating temperature range is -5°C to 55°C, making it suitable for various environmental conditions.

- **Model:**Carnival Auto
- **Material:**Polymer
- **Type:**Welding screen
- **Power supply:**Solar
- **Suitable for:**Angle grinder
- **Viewing area:**92 x 35 mm
- **Automatic filter:**110 x 90 x 8 mm
- **Dark to light time:**0.2 - 0.8 seconds
- **Protection rating:**EN169 adjustable from DIN9 to DIN13
- **Protection UV/IR:**DIN15

- **Use temperature:**-5°C/55°C

Specifications

EAN	8427648406605
Material	Polímero
