Description

The CRS01 surface-mounted lock is an ideal solution for reinforcing the security of right-hand wooden doors. This model, designed with a round cylinder, offers an internal operating system via a rotary knob and an external key, guaranteeing controlled and secure access. Its steel construction and gold-painted finish not only provide durability but also add an aesthetic touch to any door. The lock includes three D-type serrated keys, as well as a locking lever and latch, ensuring optimal and long-lasting operation. It should be noted that this lock is not reversible, making it specifically designed for installation on right-hand opening wooden doors.
