Description

The CRS01 surface-mounted lock is an ideal solution for reinforcing the security of left-hand wooden doors. This non-reversible model features a round cylinder that allows for easy access and a high level of protection. The interior is operated by a rotary knob, while the exterior is operated with a key through the cylinder, thus guaranteeing complete access control. Made of steel and with an elegant gold-painted finish, this lock combines functionality and aesthetics, adapting to various decorating styles.
