Description

The Crr16 surface-mounted deadbolt is an ideal solution for reinforcing the security of any type of door. Designed without a cylinder, this deadbolt allows for the installation of a pear-shaped cylinder (not included), providing flexibility and customization. Its reversible design ensures it can be installed in various orientations. The deadbolt is operated by key, from both the inside and outside, guaranteeing controlled and secure access. Made of high-quality steel, its gray painted finish not only provides durability but also blends aesthetically into different environments.
