Description

The CRR11 surface-mounted deadbolt is a robust and versatile security solution, designed to fit any type of door. With an 86 mm strike plate and a 50 mm round cylinder, this deadbolt provides simple and effective installation. Its reversible design allows for easy adaptation regardless of the door's orientation, making it an ideal choice for various configurations. Operation is via a security key, ensuring controlled access from both the inside and outside. This model includes five security keys, adding an extra layer of protection. Furthermore, it is complemented by a chain, a cylinder protector, and an anti-bumping system, offering comprehensive defense against tampering attempts. Made of steel with a satin brass finish, the CRR11 deadbolt combines durability and aesthetics, ensuring that its installation is not only functional but also visually appealing.
