### Description

The CRR14 surface-mounted deadbolt is an effective solution for reinforcing the security of any type of door. With an 86 mm faceplate and a 50 mm internal cylinder, this deadbolt is designed for easy and versatile installation. Its reversible mechanism allows it to be installed in different orientations without requiring a specific hand, making it suitable for various applications. Internal operation is via a key through the cylinder, while the external mechanism features a solid design, adding an extra layer of security. Made of steel with a gray painted finish, this deadbolt combines durability and aesthetics, making it an ideal choice for those looking to protect their home or business.
