

Product sheet

Black two-component epoxy glue, 44 ml

Brand: PEGATANKE

Reference: EDM 95969

This 44ml black, two-component epoxy adhesive is ideal for demanding repairs and cold welding. It dries in approximately 30 minutes in sunlight and can be cured underwater. It is applicable to a variety of surfaces, including glass, plastic, ceramic, metal, and wood. It can withstand up to 250 kg of dead weight and temperatures up to 300°C. Its chemical and mechanical resistance makes it suitable for automotive, marine, electrical, and construction applications.

Description

The 44ml black two-component epoxy adhesive is a professional solution designed for demanding repairs and cold welding. This adhesive stands out for its versatility, as it can be applied to a wide variety of surfaces, including glass, plastic, ceramic, fiberglass, metal, aluminum, copper, wood, and MDF. Its ability to cure underwater makes it a unique choice for working in humid environments. With a drying time of approximately 30 minutes in sunlight, this adhesive offers exceptional strength, withstanding up to 250 kg of dead weight and temperatures up to 300°C. Furthermore, it is machinable, allowing for precise finishes on repairs. Its excellent mechanical resistance to abrasion and chemical resistance to solvents make it ideal for applications in the automotive, marine, electrical, aerospace, and military sectors, as well as in DIY and construction.

- **Color:**Black
- **Contents:**44 ml
- **Cures underwater:**Yes
- **Use:**Professional
- **Type:**Epoxy adhesive (two-component)
- **Drying time:**Approximately 30 minutes in sunlight
- **Application:**Glass, plastic, ceramic, metal surfaces, among others
- **Maximum load:**Up to 250 kg dead weight
- **Temperature resistance:**300 °C
- **Features:**Machinable, mechanical abrasion resistance, exceptional chemical resistance
