

Product sheet

Transparent two-component epoxy glue, 32 ml

Brand: PEGATANKE

Reference: EDM 95971

This 32ml clear, two-component epoxy adhesive is ideal for demanding repairs and cold welding. It dries in approximately 30 minutes in sunlight and cures underwater, bonding to a variety of surfaces including glass, plastic, ceramic, metal, and wood. It can withstand up to 700 kg of dead weight and temperatures up to 500°C. Its excellent resistance to abrasion and solvents makes it suitable for automotive, marine, and construction applications.

Description

This 32ml clear, two-component epoxy adhesive is a professional solution designed for demanding repairs and cold welding. It stands out for its fast drying time, achieving a cure in approximately 30 minutes in sunlight, and its versatility, as it can even cure underwater. Its formulation allows for application on a wide variety of surfaces, including glass, plastic, ceramic, fiberglass, metal, aluminum, copper, wood, and MDF, making it an indispensable tool for various industries and DIY projects.

This adhesive can withstand loads of up to 700 kg and temperatures up to 500 °C, ensuring exceptional performance under extreme conditions. Furthermore, it is machinable, allowing for precise finishes on repairs.

Its resistance to abrasion and chemical solvents makes it ideal for automotive, marine, electrical, aerospace, and military applications.

- **Color:** Transparent
- **Contents:** 32 ml
- **Cures underwater:** Yes
- **Type:** Epoxy adhesive (two-component)
- **Drying time:** Approx. 30 min in sunlight
- **Application:** Glass, plastic, ceramic, metal surfaces, etc.
- **Features:** Machinable
- **Mechanical support:** High abrasion resistance
- **Chemical resistance:** Exceptional against solvents

- **Maximum load:**Up to 700 kg dead weight
- **Temperature it can withstand:**500 °C

Specifications

Colour	Transparente
EAN	7862117300861
