Description

The 1000/2000 Watt Split Wall-Mounted Convector Heater is an efficient and versatile solution for maintaining thermal comfort in your home. Designed for wall mounting, this heater combines a modern design with advanced technology, offering optimal heating performance. Its 1000 to 2000 Watt capacity allows you to adjust the power according to the needs of the space, guaranteeing a warm and cozy environment at all times.

This convector heater features automatic oscillation, ensuring even heat distribution throughout the room. It also includes a safety thermostat that protects against overheating, providing peace of mind during use. Its 8-hour timer allows you to program the appliance's operation, optimizing energy consumption and adapting to your daily routine.

The device is easily controlled by a remote control, making it convenient to use from anywhere in the room.

The LCD display provides clear information about the current settings, enhancing the user experience.

- **Power:** 1000/2000 Watts
