Description

The Oscillating Ceramic Fan Heater is an efficient and versatile solution for keeping your space warm and cozy. With adjustable power from 1000 to 1500 Watts, this PTC ceramic heater offers superior performance, ensuring fast and effective heating. Its compact design, measuring 17 x 11 x 24 cm, makes it ideal for any room, whether at home or in the office.

This fan heater not only provides heat but also creates a pleasant ambiance thanks to its flame effect, which adds a decorative touch to your surroundings. It also features an automatic oscillation function that allows for even heat distribution, preventing cold spots in the room.

Safety is a priority in the design of this heater. It incorporates a tip-over safety device and overheat protection, which automatically shut off the unit if it falls over or reaches excessive temperatures.

Its body is made of polypropylene, a durable and resistant material.

- Adjustable power: 1000 to 1500 Watts
- Dimensions: 17 x 11 x 24 cm
- PTC ceramic heater
- Flame effect for a cozy atmosphere
- Anti-tip device
- Overheating protection
