Description

The Single-Pole Switch with Cover is a versatile and robust solution for your electrical needs. Measuring 6.5 x 8 cm, this switch features an extra-flexible membrane that facilitates the passage of cables and conduits, making it the ideal choice for renovation projects requiring adaptability. Its design is built to withstand the elements, offering effective protection against moisture and dust, making it perfect for outdoor use.

Installation is simplified thanks to its configuration that allows cables to enter from the same side, minimizing potential connection errors and facilitating quick wiring. Furthermore, the switch is made of a flame-retardant insulating material, ensuring safety and impact resistance.

This feature ensures durability in diverse environments, providing a reliable and long-lasting solution for your electrical projects.

- Dimensions: 6.5 x 8 cm
- Extra-flexible membrane for easy cable routing
- Protection against moisture and dust
- Ideal for outdoor spaces
- Same-side cable connection for quick installation
- Made of flame-retardant insulating material
- Impact-resistant
- Durability in diverse environments
- Design adapted for renovation projects
- Reliable solution for electrical installations

Specifications

High	5
Width	7
EAN	8435450478451
Manufacturer	AFT
Weight (kg)	0.001
Depth	9
Type of installation	Surface
