Description

The 10.0 mm Socket Screwdriver is an essential tool for any DIY enthusiast or maintenance professional. Measuring 235 mm in length, this screwdriver is designed to deliver exceptional performance in a variety of applications, from electrical work to mechanical repairs. Its shank, made of S2 steel, provides high strength and hardness, allowing it to withstand extreme torque without compromising its effectiveness.

The ergonomic design of this screwdriver ensures a comfortable and efficient user experience. Its TPR-coated handle with a plastic base features a rubberized grip that fits perfectly in the hand, allowing maximum force to be applied with ease.

Furthermore, the flat finish of the handle allows the use of a fixed or adjustable wrench to increase tightening force, and its versatility extends to its use as a T-handle by inserting another screwdriver through the handle hole.

- Size: 10.0 mm
- Length: 235 mm
- High-strength S2 steel shaft
- Ergonomic design for greater comfort
- TPR-coated handle
- Rubberized grip for better handling
- Flat finish for use with wrenches
- Can be used as a T-handle

- Manufactured according to DIN-ISO standards
- Ideal for electrical, maintenance, and mechanical work

Specifications

High	4
Width	6
