Description

The 8.0 mm Socket Screwdriver is an essential tool for any professional or DIY enthusiast. Measuring 235 mm in length, this screwdriver is designed to deliver exceptional performance in a variety of applications, from electrical work to mechanical repairs. Its shank, made of S2 steel, is notable for its high strength and hardness, allowing it to withstand extreme torque without compromising its effectiveness.

The ergonomic design of this screwdriver ensures a comfortable and efficient user experience. Its handle, with a TPR coating and plastic base, features a rubberized grip that fits perfectly in the hand, allowing maximum force to be applied with ease.

Furthermore, the flat finish of the handle allows the use of a wrench or adjustable wrench to increase tightening force, and it can also be used as a T-handle by inserting another screwdriver through the hole in the handle.

- Socket size: 8.0 mm
- Total length: 235 mm
- S2 steel shaft for high strength
- Ergonomic design for greater comfort
- TPR coated handle with rubberized grip
- Flat finish for use with wrenches
- Can be used as a T-handle
- Manufactured according to DIN-ISO standards
- Ideal for electrical, maintenance, and mechanical work

- Guaranteed durability
