

Product sheet

Quick plastic reducing coupling for 4 to 12 mm tubes, instant connection.

Brand: COFAN

Reference: COF 05010806-U

The T-8/6 plastic quick-reducing coupling is designed for instant connections of pipes with outside diameters from 4 mm to 12 mm. Ideal for compressed air installations, this product offers easy visualization of the pipe diameter and guarantees complete safety and leak-proofness, even under extreme conditions. Its plastic construction makes it lightweight and reusable, facilitating its use in a variety of applications.

Description

PLASTIC REDUCING QUICK COUPLING T-8/6 - Sold individually

The T-8/6 plastic reducing quick coupling is an efficient and versatile solution for connecting pipes in compressed air installations. Its design allows for an instant and secure connection, facilitating work in environments where speed and reliability are essential. This fitting is made entirely of plastic, guaranteeing high corrosion resistance and a long service life. Its structure allows for easy visualization of the pipe diameter, ensuring precise and uncomplicated installation.

- **Material:** High-quality, corrosion-resistant plastic.
- **Application Range:** Pipes from 4 mm to 12 mm outside diameter.
- **Connection:** Quick-connect system for instant installation.
- **Visibility:** Easy identification of the pipe diameter.
- **Safety:** Total watertightness guaranteed, even under extreme conditions.
- **Recoverability:** Recoverable fittings for easy maintenance.
- **Use:** Ideal for compressed air installations.
- **Compatibility:** Compatible with a wide range of plastic pipes.
- **Dimensions:** Compact and lightweight, easy to Handle.
- **Regulations:** Meets quality and safety standards.
