T-6 adjustable adapter elbow with 90° mechanical coupling

Brand: COFAN

Reference: COF 05040006-U

The T-6 Swivel Elbow Adapter is a fitting designed to facilitate 90° angle connections. Its mechanical coupling ensures a safe and efficient installation. This product is ideal for applications requiring flexibility in the direction of pipes or ducts. It is sold individually, allowing you to purchase the quantity needed for your project. Its robust design guarantees durability and optimal performance under various conditions.

Description

The T-6 Swivel Adapter Elbow is an essential component for piping systems that require flexibility and adaptability in their installation. This elbow is designed with a mechanical coupling that allows for precise adjustment at a 90-degree angle, facilitating efficient connections between different pipe sections. Its robust structure guarantees long durability and resistance to adverse conditions, making it a reliable choice for various industrial and domestic applications.

- **Material:** Made of high-strength alloy.
- **Angle:** 90-degree orientation.
- **Coupling Type:** Mechanical, ensuring a tight fit.
- **Compatibility:** Compatible with multiple pipe diameters.
- **Installation:** Easy to install without the need for specialized tools.
- **Use:** Ideal for applications in plumbing and HVAC systems.
- **Resistance:** High resistance to corrosion and extreme temperatures.
- **Dimensions:** Varies depending on the model, adapting to different needs.
- **Standards:** Complies with industrial quality and safety standards.
- **Durability:** Designed for extended use under demanding conditions.

The T-6 Swivel Adapter Elbow is a practical and efficient solution for optimizing pipe layout in any project.

Specifications

Width	1
EAN	8445187408157
Manufacturer	COFAN

Weight (kg)	0,009
