

## Product sheet

## R-1/8 female threaded hexagonal plug with GAS threads for secure connections

Brand: COFAN

Reference: COF 06170016-U

The R-1/8 female threaded hexagonal plug is an essential component for piping systems. Designed with GAS threads, it guarantees a secure and leak-proof fit. Its robust construction ensures durability and strength in various applications. Ideal for sealing pipe holes and preventing leaks, this plug is a practical and efficient solution for plumbing and industrial maintenance projects. Sold individually for convenient purchasing.

### Description

The R-1/8 female threaded hexagonal plug is an essential component for piping systems requiring a secure and efficient closure. Manufactured from high-quality materials, this plug is designed to offer excellent pressure and corrosion resistance, ensuring optimal performance in various industrial and plumbing applications. Its hexagonal design allows for easy handling and simple installation, facilitating the use of standard tools for placement.

- **Type:** Hexagonal plug with female thread
- **Thread:** R-1/8 (GAS)
- **Material:** Stainless steel / Brass (specify according to availability)
- **Dimensions:** Compatible with 1/8 inch connections
- **Resistance:** High resistance to corrosion and pressure
- **Applications:** Ideal for plumbing, hydraulic, and pneumatic systems
- **Installation:** Easy installation with standard tools
- **Standards:** Meets industry standards
- **Finish:** Polished surface for improved aesthetics and functionality
- **Sales:** Unit individual

This hexagonal plug is a reliable solution for securing connections in systems where a watertight and durable seal is required.

### Specifications

|       |               |
|-------|---------------|
| Width | 1             |
| EAN   | 8445187410747 |

|              |       |
|--------------|-------|
| Manufacturer | COFAN |
| Weight (kg)  | 0,008 |
| Thread       | 1/8"  |
