Hexagonal plug with R-1/4 female thread for GAS threads, sold individually

Brand: COFAN

Reference: COF 06170017-U

The R-1/4 female threaded hexagonal plug is an essential component for sealing connections in piping systems. Manufactured with high-quality materials, it features GAS threads that ensure a secure and efficient fit. Its hexagonal design allows for easy handling and installation. Ideal for industrial and domestic applications, this plug is sold individually, making it easy to purchase according to user needs.

Description

The Hex Plug with Female Thread R-1/4 is an essential component for piping systems and fittings that require a secure and efficient seal. Manufactured with high-quality materials, this hexagonal plug is designed to offer optimal resistance to pressure and corrosion, ensuring long-lasting performance in various industrial and domestic applications. Its female thread design allows for easy installation and a precise fit on GAS threaded connections, ensuring system integrity.

- **Type:** Hex plug with female thread
- **Size:** R-1/4
- **Thread:** GAS
- **Material:** Stainless steel (or other specific material depending on the product)
- **Resistance:** High corrosion resistance
- **Applications:** Piping systems, hydraulic and pneumatic connections
- **Standards:** Complies with relevant industry standards
- **Installation:** Easy installation using standard tools
- **Dimensions:** Detailed specifications available in the data sheet
- **Sales:** Individual unit

This The hexagonal plug is ideal for those seeking a reliable and high-quality solution for their plumbing and industrial maintenance projects.

Specifications

Width	2
EAN	8445187410761

Manufacturer	COFAN
Weight (kg)	0,016
Thread	1/4"
