Description

The 225mm, 60-grit micro-perforated sanding disc with hook and loop backing is an essential tool for professionals and DIY enthusiasts seeking a high-quality finish on their projects. Made from silicon carbide, this disc offers exceptional durability and superior performance in a variety of applications. Its micro-perforated design allows for better dust evacuation, contributing to cleaner and more efficient work. Furthermore, its felt film backing ensures optimal adhesion to the hook and loop system, facilitating quick disc changes and maximizing productivity.

This disc is versatile and can be used wet, making it ideal for working on painted wood, plaster, drywall, paint, and varnishes.

Its 60 grit provides adequate abrasiveness for removing imperfections and preparing surfaces for subsequent finishes.

- **Diameter:** 225 mm
