

Product sheet

Quick mesh m-5 threaded link for chain joining, available from m-3.5 to m-16.

Brand: COFAN

Reference: COF 18002703-U

The M-5 Quick Link is a threaded link designed to facilitate the creation of quick chain connections or splices. Its robust construction ensures a secure and efficient connection. This product is available in a variety of sizes, from M-3.5 to M-16, allowing it to adapt to different needs and applications. Ideal for projects requiring fast and reliable chain connections.

Description

The M-5 Quick Link is an essential component for creating quick chain connections or splices. Designed with a threaded link, this link offers an efficient and secure solution for various industrial and construction applications. Its versatility allows its use in a wide range of projects, guaranteeing optimal performance under demanding conditions.

The M-5 Quick Link is available in different sizes, from M-3.5 to M-16, making it an adaptable option to the specific needs of each user.

- **Material:** High-strength steel
- **Finish:** Galvanized for greater durability
- **Thread:** Precise threading for a secure fit
- **Load capacity:** High tensile strength
- **Dimensions:** Available in various diameters (M-3.5 to M-16)
- **Applications:** Ideal for quick connections in chains
- **Installation:** Quick and easy, no special tools required
- **Standards:** Meets industrial quality standards
- **Corrosion Resistance:** Treatment that extends service life
- **Compatibility:** Compatible with other chain components

The M-5 Quick Link is a reliable solution for those seeking efficiency and safety in their chain joining projects.

Specifications

Width

2

EAN	8445187421552
Manufacturer	COFAN
Weight (kg)	0,2
