

Product sheet

Quick mesh m-9 threaded link for chain joining, available from m-3.5 to m-16

Brand: COFAN

Reference: COF 18002707-U

The M-9 Quick Link is a threaded link designed to facilitate the creation of quick chain connections or splices. This product is ideal for applications requiring an efficient and secure connection. Available in sizes ranging from M-3.5 to M-16, it adapts to a variety of needs. Its robust design ensures durability and functionality in diverse work environments.

Description

M-9 QUICK MESH (Sold individually)

The M-9 Quick Mesh is an essential component for creating quick chain links or splices. Designed with a threaded link, this mesh provides an efficient and secure solution for various industrial and construction applications. Its versatility allows its use in a wide range of projects, guaranteeing a robust and reliable connection. The M-9 is available in different sizes, from M-3.5 to M-16, adapting to the specific needs of each user.

Technical characteristics:

- **Material:** High-strength steel
- **Threading type:** Threaded link for easy installation
- **Load capacity:** Suitable for high-tension applications
- **Available sizes:** From M-3.5 to M-16
- **Finish:** Anti-corrosion treatment for greater durability
- **Use:** Ideal for quick connections in chains
- **Compatibility:** Compatible with other standard chain components
- **Applications:** Construction, transport, and machinery
- **Installation:** Quick and easy, without no need for special tools
- **Regulations:** Complies with industrial safety standards

Specifications

Width	1
EAN	8445187421606
Manufacturer	COFAN
Weight (kg)	0,098
