Description

The M-6x50 welded ring is an essential component in various industrial and agricultural applications, designed to offer exceptional strength and durability. Manufactured from high-quality materials, this ring features a welded point, ensuring reliable performance under demanding conditions. Its versatility makes it an ideal choice for lifting small loads, splicing, and baling in agriculture.

The M-6X50 welded ring is suitable for a wide range of uses, providing a safe and efficient solution for your securing and lifting needs.

- **Dimensions:** M-6x50 mm
- **Material:** High-strength steel
- **Welding point:** High quality and durability
- **Load capacity:** Ideal for small loads
- **Uses:** Lifting, splicing, and agriculture
- **Finish:** Treated surface for increased corrosion resistance
- **Standards:** Meets A2 and A4 quality standards
- **Applications:** Use in industrial and agricultural
- **Type of sale:** Unit
- **Compatibility:** Compatible with other lifting and securing systems

The M-6X50 WELDED RING is a reliable option for those seeking quality and strength in their projects.

Specifications

Width	6
EAN	8445187422269

Manufacturer	COFAN
Weight (kg)	0,034
