

## Product sheet

## High-quality M-8x60 welded ring for lifting and splicing small loads

Brand: COFAN

Reference: COF 18004107-U

The M-8X60 welded ring is a high-quality accessory, ideal for a variety of applications. Its welded point ensures strength and durability, making it suitable for lifting small loads, splicing, and agricultural use, especially for baling. This product is sold individually, and we recommend contacting us for pricing on A2 and A4 grades.

### Description

The **M-8X60 WELDED RING** is an essential component for various industrial and agricultural applications. Manufactured from high-quality materials, this ring stands out for its strength and durability, especially at the weld point, guaranteeing optimal performance under demanding conditions. Its robust design allows its use in lifting small loads, as well as in splicing and baling in the agricultural sector.

This welded ring is ideal for those seeking a reliable and safe solution for their projects.

Its versatility makes it a suitable option for different work environments, ensuring it meets the expectations of even the most demanding users.

- **Dimensions:** M-8x60 mm
- **Material:** High-strength steel
- **Welding point:** High quality
- **Load capacity:** Suitable for small loads
- **Uses:** Lifting, splicing, and agriculture
- **Finish:** Treated surface for durability
- **Standards:** Meets safety standards
- **Corrosion resistance:** Special treatment available
- **Sales:** Individual unit
- **Inquiry:** A2 and A4 pricing available

The RING The M-8X60 welded wire is a reliable choice for those seeking quality and durability in their

everyday applications.
