Description

The **M-4x25 WELDED RING** is an essential component for various industrial and agricultural applications. Manufactured with high-quality materials, this ring stands out for its strength and durability, especially at the weld point, guaranteeing optimal performance under demanding conditions. Its versatile design allows its use in lifting small loads, as well as in splicing and baling in agriculture.

The M-4x25 welded ring is ideal for those seeking a reliable and secure solution for their projects.

Its ability to withstand tension and its ease of use make it a preferred choice for professionals in various sectors.

- **Dimensions:** M-4x25 mm
- **Material:** High-strength steel
- **Welding point:** High quality
- **Use:** Lifting small loads, splicing, agriculture
- **Applications:** Bale placement and other industrial uses
- **Strength:** High load capacity
- **Finish:** Treated surface for durability
- **Standards:** Meets quality standards
- **Sales:** Individual unit
- **Inquiry:** A2 and A4 pricing available

The WELDED RING The M-4x25 is a reliable option for those who require a quality product in their daily operations.

Specifications

Width	3
EAN	8445187422320
Manufacturer	COFAN
Weight (kg)	0,009
