Red rectangular catadioptric 106 x 50 mm with adhesive base and high durability

Brand: COFAN

Reference: COF 21201163

The 106 x 50 mm red rectangular reflector is designed to improve vehicle visibility in low-light conditions. Approved and manufactured from high-quality PMMA, it reflects light from other sources, increasing road safety. This model includes an adhesive backing and two holes for screw mounting (screws not included), allowing for versatile installation on vehicles, trailers, and machinery. Its durability and ease of installation make it ideal for a variety of applications.

Description

The **Rectangular Red Reflector 106 x 50 mm** is an approved device designed to improve vehicle visibility in low-light conditions. This model, which is mounted on the rear of the vehicle, is essential for increased road safety, as it reflects light from other sources, improving contrast and visibility in critical situations such as nighttime or foggy days.

Made of high-quality **PMMA (polymethyl methacrylate)**, this reflector is resistant to wear and weathering, ensuring its functionality and appearance over time.

Its design includes two holes for screw mounting (screws not included) and an adhesive base, allowing for two installation options: adhesive or screwed, adapting to the user's needs.

- Dimensions: 106 x 50 mm
- Color: Red (for rear mounting)
- Material: High-quality PMMA
- Approved for vehicle use
- Reflects light, improving visibility
- Weather and wear resistant
- Versatile installation: adhesive or screwed
- Ideal for cars, trucks, trailers, and machinery
- Maintains its functionality and appearance over time
- Contributes to road safety and low-light environments

This reflector is an effective solution for any vehicle requiring improved visibility, ensuring greater road safety.

Specifications

Width	5
Colour	Red
EAN	8445187467208
Manufacturer	COFAN
Weight (kg)	0,028
