Mixed splice connector Ø16mm with thread for easy and durable irrigation

Brand: COFAN

Reference: COF 90016057-U

The 16mm-1/2" Mixed Connector is a threaded, mixed splice connector ideal for drip or sprinkler irrigation systems. Designed for gardening and agriculture, it allows for easy adaptation to irrigation hoses or pipes. Made of durable material, it withstands adverse weather conditions. It is easy to assemble, and the thread on one end ensures a secure and fixed connection, facilitating various irrigation methods without additional tools.

Description

The **MIXED LINK Ø16MM-1/2** is a mixed splice connector specifically designed for hoses used in drip or sprinkler irrigation systems. This product is ideal for gardening and agricultural applications, providing an efficient and versatile solution for connecting irrigation hoses or pipes. Its intuitive design allows for easy adaptation, eliminating the need for additional tools for installation.

Made with high-strength materials, the connector is designed to withstand adverse weather conditions, ensuring its durability and functionality over time.

The thread on one end ensures a secure and strong connection, contributing to the stability of the irrigation system.

- Diameter: Ø16mm
- Thread: 1/2"
- Material: Weather-resistant
- Use: Drip and sprinkler irrigation
- Applications: Gardening and agriculture
- Installation: No additional tools required
- Design: Adaptable to hoses and pipes
- Assembly: Quick and easy
- Connector: Mixed splice
- Durability: High resistance to adverse conditions

The Ø16MM-1/2 MIXED SPLICE is a reliable option for those looking to optimize their irrigation systems effectively and easily.

Specifications

Width	2
EAN	8445187426397
Manufacturer	COFAN
Weight (kg)	0,006
