Description

The **MIXED LINK Ø16MM-3/4** is a mixed splice connector specifically designed to facilitate the connection of hoses in drip or sprinkler irrigation systems. This product is ideal for use in gardening and agriculture, allowing for easy adaptation to different types of hoses or irrigation pipes. Its innovative design eliminates the need for additional tools, simplifying the installation and maintenance process.

Made with high-strength materials, the connector is designed to withstand adverse weather conditions, ensuring durability and reliability in use.

The thread on one end provides a strong, secure connection, ensuring a leak-free fit.

- Diameter: Ø16mm
- Thread: 3/4"
- Material: Weather-resistant
- Use: Drip and sprinkler irrigation
- Installation: No additional tools required
- Secure, leak-free connection
- Ergonomic design for easy handling
- Compatible with standard hoses and pipes
- Ideal for gardening and agriculture
- Quick and easy assembly

The Ø16MM-3/4 MIXED LINK is a practical and efficient solution for optimizing irrigation systems, ensuring optimal performance in the care of plants and crops.

Specifications

Width	2
EAN	8445187426410
Manufacturer	COFAN
Weight (kg)	0,006
