Description

The 297x210mm polystyrene warning sign, specifically designed to indicate loading and unloading zones, is an essential safety element in work and commercial environments. Made of high-quality polystyrene, this sign guarantees durability and resistance to environmental conditions, ensuring its visibility and effectiveness over time. Its clear and concise design allows for quick identification of the risk area, contributing to accident prevention and improving organization in workspaces.

- **Dimensions:** 297x210 mm
- **Material:** High-resistance polystyrene
- **Text:** Loading and unloading area
- **Design:** Varies depending on availability, maintaining the same meaning
- **Use:** Ideal for industrial, commercial, and logistics environments
- **Installation:** Easy to place on walls, doors, or metal structures
- **Visibility:** High visibility thanks to its graphic design
- **Resistance:** Resistant to weathering and chemicals
- **Standards:** Complies with safety signage regulations
- **Options:** Available in different sizes and materials upon request

This sign is a fundamental tool for ensuring safety and order in loading and unloading areas, contributing to a safer and more efficient work environment.

Specifications

Width	21
EAN	8445187108651

Manufacturer	COFAN
Weight (kg)	0,1
