Description

The fall hazard warning sign is an essential safety element in work and public environments. Made of high-quality polystyrene, this sign measures 420 x 297 mm, making it easily visible and recognizable. Its adaptable design allows it to be used in different contexts without altering the warning message, thus ensuring effective communication of the present risk. The sign is ideal for use in areas where the risk of falls is significant, such as factories, warehouses, or public spaces.

- **Material:** High-strength polystyrene
- **Size:** 420x297 mm
- **Design:** Variable, while maintaining the same meaning
- **Use:** Indoor and outdoor
- **Visibility:** High, thanks to its size and contrasting colors
- **Installation:** Easy, with options for fixing to different surfaces
- **Durability:** Resistant to adverse weather conditions
- **Standards:** Complies with current safety regulations
- **Applications:** Ideal for factories, warehouses, and public spaces
- **Function:** Warning Regarding the risk of falls on the same level

This sign is a key tool for accident prevention and the promotion of a safe environment.

Specifications

Width	29
