Luminescent distress sign 210x148mm fire hydrant direction down

cofan

Brand: COFAN

Reference: COF SO42LU210148

This 210x148 mm luminescent emergency sign is designed to indicate the direction of the fire hydrant downwards. It ensures optimal visibility in low-light conditions, facilitating the identification of the emergency exit. While the design may vary, the sign's meaning remains constant, guaranteeing its essential function in emergency situations. Ideal for complying with safety regulations in buildings and public spaces.

Description

The 210x148mm photoluminescent emergency sign, oriented towards the fire hydrant, is an essential safety element in public and private spaces. Designed to be visible in low-light conditions, this sign ensures that evacuation routes and access points to emergency equipment are easily identifiable. Its robust structure and resistant material ensure long durability, complying with current safety regulations.

- **Dimensions:** 210x148 mm
- **Material:** High-strength plastic
- **Sign Type:** Luminescent
- **Direction:** Fire hydrant facing down
- **Visibility:** High visibility in dark conditions
- **Installation:** Easy to install on various surfaces
- **Standards:** Complies with established safety regulations
- **Design:** Varies depending on availability, maintaining the same meaning
- **Use:** Ideal for buildings, factories, and public spaces
- **Maintenance:** Requires periodic cleaning to ensure effectiveness

This sign is a fundamental tool for accident prevention and proper emergency management, ensuring that all occupants of a building can quickly locate fire extinguishing equipment if needed.
