COMPACT 110-130V DC 160A electric controller with pulse control and fixed mounting

Brand: SCHNEIDER

Reference: IMPO LV429438

The MT250 electric controller, part of the ComPact NSX range, is designed for industrial applications requiring efficient and safe control. It operates on voltages from 110 to 130 V DC and supports currents up to 160 A, ensuring optimal performance in demanding environments.

Description

The MT250 electric control is a control device designed for industrial applications that require efficient and safe operation. This controller is part of the ComPact NSX range, offering compatibility with various models and a wide range of technical features that guarantee its performance in demanding environments.

- Product range: ComPact NSX400...630, ComPact NSX100...250 DC next generation
- Control type: Standard
- Control circuit voltage: 110...130 V DC
- Rated current: 160 A and 100 A
- Mounting type: Fixed
- Control signal type: Pulse and maintained
- Response time:
