

Product sheet

**POWERLOGIC 400A/5A open core current transformer, class 1, simplified installation**

Brand: SCHNEIDER

Reference: IMPO METSECT5HG040

The PowerLogic Type HG open-core current transformer is ideal for a variety of applications, offering a compact design that accommodates different conductor sizes. Its tropicalized rating ensures optimal performance in extreme environmental conditions, while its simplified installation facilitates the modernization of electrical systems.

[View product online](#)**Description**

The PowerLogic Open Core Current Transformer - Type HG is a versatile and efficient solution for various electrical applications. Designed to handle currents up to 400 A with a 5 A secondary output, this transformer accommodates different conductor sizes thanks to its compact design. Its tropicalized classification makes it suitable for operation in extreme environmental conditions, guaranteeing reliable performance in challenging environments.

- Product Type: Current Transformer
- Rated Current: 400 A
- Secondary Current: 5 A
- Accuracy Class: Class 1 at 5 VA
- Turns Ratio: 400/5
- Operating Temperature: -5 to 50 °C
- Storage Temperature: -25 to 70 °C
- Rated Operating Voltage:

Specifications

Rated current (A)	400
EAN	3606489608217
