

Product sheet

**COMPACT 400A 24-30V DC
electric controller, 700ms fast
response and fixed mounting**

Brand: SCHNEIDER

Reference: IMPO LV432643

The T400/630 electric controller is a robust and versatile control device designed for automatic charging applications in the new generation ComPacT NSX400 and NSX630 electrical systems. It operates with voltages from 24 to 30 V DC, ensuring a fast and efficient response in various control configurations.

[View product online](#)**Description**

The T400/630 Electric Control is a control device designed for applications in new generation ComPacT NSX400 to NSX630 electrical systems. This controller is characterized by its robustness and versatility, allowing for efficient integration into various control configurations.

- Product range: ComPacT NSX400 ... 630 new generation
- Product type: Electric controller
- Application: Automatic spring charging
- Compatibility: NSX500, NSXm, NSX400, NSX630, Micrologic 7, PowerPact Multistandard, EasyPact CVS630, EasyPact D3N
- Control circuit voltage: 24...30 V DC
- Mounting type: Fixed
- Rated current: 400 A and 630 A
- Control signal type: Pulse and maintained
- Response time:
