Description

The LED string lights with 10 units and solar panel A19 is the perfect solution to efficiently and eco-friendly light up your outdoor spaces. With a power of 3.6 W, this string light provides a warm light of 2700 K, creating a cozy atmosphere.

We recommend using it in gardens, patios, and outdoor events. Thanks to its water-resistant design (IP44), it is ideal for any weather. Additionally, its solar panel allows for quick and efficient charging, ensuring you always have light when you need it.

Compatible with various decorations, this string light is easy to install and requires no wires. Transform your outdoor space today!
