Description

Hinges for doors designed to equip your kitchen, cabinets, home, bathroom and office furniture with high quality at the best price. They stand out for their shock-absorbing piston that provides soft closing of the door. They are available in **straight version** with a door opening of 105°. For installation, they require a previous drill with a diameter of 35 mm for the bowl. And its fixation to the board is done using included screws. They are also distinguished by their easy installation thanks to the automatic clip mounting system from the hinge to the insert. In addition, both have an eccentric screw for quick and comfortable adjustment. The fixation of the supplement is carried out with a Euro screw that requires a previous drill with a diameter of 5 x 12 mm used in boards with a drill rack.

Specifications

High	10
Width	15
Colour	Niquelado
EAN	8432393003054
Manufacturer	EMUCA
Format	20 JG
Material	Steel
Measures	Supercodo
Weight (kg)	617, 2
Depth	27
