Description

The pack of 100 Metal Rubber Washers M-8 is the perfect solution for ensuring sealing in hydraulic and pneumatic systems. Made from high-quality galvanized steel, this washer features an inner rubber ring that ensures effective sealing.

We recommend its use in screw heads, fittings, plugs, and blind nuts. With a temperature range of -30 to 110 degrees Celsius, it is ideal for various industrial applications.

- Material: Galvanized steel (AISI 1008-1010).
- NBR joint for optimal sealing.

Don't compromise on quality in your projects, choose our washers for superior performance.

Specifications
