Description

The pack of 100 rubber metal washers M-12 is the perfect solution for ensuring sealing in hydraulic and pneumatic systems. These washers are made of galvanized steel, ensuring durability and resistance in various applications.

We recommend their use in screw heads, unions, plugs, and blind nuts. With an operating temperature between -30 and 110 degrees Celsius, they are ideal for demanding environments.

- Material: Galvanized steel (AISI 1008-1010).
- Internal NBR joint for optimal sealing.

Don't compromise on the quality of your installations, choose our washers for superior performance.

Specifications

Colour	Steel
EAN	8445187353044
Manufacturer	COFAN
Material	Zinc-plated steel
