Description

The pack of 100 EPDM sealing washers measuring 25x8 mm is the perfect solution for ensuring effective sealing in applications with self-drilling screws. These washers are designed to be used in holes measuring from 4.8 to 8 mm, providing a secure and durable fit.

We recommend their use in electrical installations, plumbing, and construction projects. The EPDM material offers high resistance to weather and chemicals, ensuring a long lifespan.

- Dimensions: 25x8 mm.
- Water and extreme temperature resistant.
- Compatible with various types of screws.

Don't compromise on the quality of your projects; choose our EPDM sealing washers for a perfect seal.
