Description

The A-2 stainless steel rivets are the perfect solution for applications requiring corrosion resistance. This pack of 500 units is ideal for the marine industry and other humid environments. Their design allows for secure fastening of stainless elements, ensuring durability and safety.

We recommend their use in metal furniture and structures that require high oxidation resistance. With dimensions of 4.8 x 10 mm, they are compatible with various industrial applications.

Don't compromise on the quality of your projects. Purchase this pack and ensure the longevity of your installations.

Specifications

EAN	8445187057768
