Description

The A-2 stainless steel rivets are the perfect solution for applications where corrosion resistance is essential. This pack of 250 units is ideal for the marine industry and for fastening metal furniture in food environments.

With dimensions of 6.4 x 18 mm, these rivets are compatible with a wide range of stainless materials. Their use is recommended in marine areas and places with high humidity.

Don't compromise on the quality of your projects! Ensure a durable and resistant fastening with our stainless steel rivets.
