Description

The low-head slotted rivet nuts A-2 are the perfect solution for those seeking a discreet and durable fastening. Made from A2 stainless steel, they offer corrosion resistance and exceptional performance in various applications.

Recommended for use in construction, manufacturing, and DIY projects, these nuts are compatible with sheet metal, tubes, and plastics. Their slotted design prevents rotation, ensuring stability and durability.

With a wide range of metric sizes available, you will find the ideal size for every project. Take advantage of their versatility and enhance your fastenings!
