Description

Cylindrical rivet nuts with open bottom and reduced head are perfect for applications requiring single access. Their cylindrical design ensures a strong and durable grip, preventing body rotation and providing stability. Made of aluminum, they are lightweight and corrosion-resistant, ideal for harsh environments.

Recommended for use on metal sheets, tubes, and extrusions, these nuts are versatile and suitable for projects where space is limited. Available in various metrics from M4 to M10, they ensure you find the perfect size for your needs.
