Description

The pack of 100 white plastic plugs of 10 mm is the ideal solution for fixing in hollow bricks. Its innovative design with three expansion legs ensures a firm and secure hold, preventing unwanted rotation during installation.

Recommended for wood and particle board screws, this plug is compatible with solid and hollow materials. Its protruding collar ensures that the plug does not sink into the hole, facilitating quick installation without the need for deep drilling.

Choose this economical plug and enhance the efficiency of your construction projects.

Specifications
