Description

The pack of 10 units of 10 mm plastic plugs is the perfect solution for fixing in hollow bricks. Its innovative design allows for expansion in three directions, ensuring a firm and secure hold. This plug is ideal for applications on solid materials and is compatible with wood and particle board screws.

Made from high-density polyethylene, its collar prevents the plug from slipping in the hole, facilitating quick and efficient installation. Additionally, its special design prevents rotation, ensuring optimal performance with every use.

Choose our plastic plug for hassle-free installation and long-lasting results.
