Description

The pack of 200 insulation panel fixing plugs 10x70 is the perfect solution for securing panels in compact materials. Its design with fixing spike and nylon nail ensures quick and efficient assembly.

Recommended for applications in mineral wool, cellular glass, and other pressure-resistant insulators, this plug allows for simple installation: just drill an 8 mm hole, insert the plug, and hammer to expand. The pre-expansion zone prevents the plug from sinking during installation.

- Dimensions: 10 mm diameter, length up to 190 mm.
- Compatible with polypropylene and other insulation materials.

Optimize your work with this high-quality product and ensure a professional finish.
