Description

Discover our pack of 100 M8x70 double threaded rods, made from zinc-coated steel. These rods are the perfect solution for fastening and securing surfaces, whether on wood, concrete, or stone. Their design with a Torx head allows for quick and secure installation, ensuring a firm hold in any project.

We recommend their use in construction, carpentry, and structural assembly applications. With a length of 70 mm, they are ideal for tasks requiring high strength and durability. Always have this pack of 100 units on hand for your most demanding projects.
