Description

The M10x100 double threaded studs are the perfect solution for fastening and securing various surfaces. Made from zinc plated steel, they offer high strength and durability, making them an excellent choice for both home and professional projects.

Recommended for use on stone, wood, concrete, and false ceilings, these studs ensure a secure and efficient assembly. Their design with Torx drive allows for quick and easy installation, minimizing the risk of slipping.

Compatible with different metrics, this pack of 100 units is ideal for any construction or repair work. Don't miss out!
