Description

The M10x200 double-threaded studs with zinc coating are the perfect solution for robust and durable fastening. Their design with Torx drive allows for simple and secure installation, ensuring a firm grip on multiple surfaces such as stone, wood, and concrete.

Recommended for construction and DIY projects, these studs offer versatility and adaptability. With a length of 200 mm, they are ideal for joining two surfaces effectively.

- Material: Zinc-coated steel
- Use: Fastening in various applications
- Compatibility: Stone, wood, and concrete surfaces

Don't miss the opportunity to purchase this pack of 50 units and optimize your projects with quality and efficiency.
