Description

The Pack of 5 long hex key wrenches with ball tip M-4 is the perfect tool for any professional or DIY enthusiast. These keys are made from chrome vanadium steel, ensuring durability and strength.

With a long series design, they allow easy access to screws in tight spaces. Ideal for assembly, maintenance, and repair work. Their black finish not only provides an elegant look but also makes them corrosion-resistant.

- Sizes range from sw 1.5 to sw 10.
- Compatible with a wide variety of screws.

Don't miss out on these essential tools in your kit. Order now!
