Description

The Pack of 10 titanium drill bits at 2.25 mm is the perfect solution for professionals seeking high precision and durability in their work. These drill bits are designed to drill hard steel, thanks to their titanium nitride coating that enhances performance and extends lifespan.

Recommended for use in workshops and DIY projects, these drill bits are compatible with most drills. Their specifications meet DIN 338N standards and feature a 118º angle for efficient drilling.

Don't compromise on the quality of your work, choose our titanium drill bits and experience the difference.

Specifications

EAN	8445187075120
