Description

The Pack of 10 titanium drill bits 3.5 mm is the ideal solution for drilling hard steel with ease and precision. These bits are made with a titanium nitride coating that provides greater durability and performance compared to conventional bits.

Recommended for use in workshops, construction, and DIY projects, these bits are compatible with most electric drills. Their precision ground design ensures clean and efficient drilling.

Don't compromise on tool quality. Get this pack and enhance your performance on every project.
